PROFILE

Full Stack Developer with internship and project experience building web applications using React.js, Node.js, Express.js, and MySQL/MongoDB. Completed a Full-Stack internship at Sri Lanka Telecom, contributing to a development of internal enterprise system using the MERN stack. Passionate about developing scalable, secure, and user-friendly applications. Strong foundation in REST API development, authentication, and modern frontend design.

WORK EXPERIENCE

Software Engineering Internship
Sri Lanka Telecom (SLT)
6 Months

- Built frontend components using React.js and Redux
- Developed REST APIs using Node.js and Express.js
- Managed MongoDB database schemas
- Implemented real-time updates using Socket.io
- Technologies: React.js, Node.js, Express.js, MongoDB, Redux, Socket.io, Azure

SKILLS

- Programming Languages: JavaScript, SQL
- Frontend Development: React.js, Next.js, HTML, CSS, Redux
- Backend Development: Node.js, Express.js, REST API Development, JWT Authentication
- Database: MongoDB, MySQL
- Tools & Technologies: Git, GitHub, Socket.io, Axios

PROJECTS

FX Tracker – Real-Time Currency Monitoring and Alert System

- Developed a full-stack application for live currency tracking with real-time alerts, watchlists, dashboard analytics, and secure user authentication. Implemented WebSocket updates, background alert processing, and interactive exchange rate visualization.
- Technologies: React.js, Node.js, Express.js, MySQL, Socket.io, JWT, REST API, Nodemailer, Chart.js

Personal Finance & Budget Tracking Application

- Built a full-stack finance management system enabling secure income/expense tracking, budget monitoring, category management, and financial analytics. Implemented JWT authentication, CRUD operations, dynamic filtering, and interactive dashboard visualizations.
- Technologies: React.js, Vite, Tailwind CSS, Node.js, Express.js, MySQL, JWT, REST API, Recharts

Online Voting System

- Developed a secure full-stack voting platform supporting nominee management, live result rankings, comments, and admin controls. Integrated OTP authentication and backend vote validation with cooldown restrictions to prevent duplicate voting.
- Technologies: Next.js, React.js, Node.js, Express.js, MySQL, Tailwind CSS, JWT, REST API

Seat Reservation System

- Full-stack web application that allows interns to view available office seats and reserve desks for specific dates while preventing double bookings and ensuring organized seat allocation. The system includes an admin dashboard for managing seats, monitoring reservations, and generating seat utilization reports with built-in validation rules to enforce booking limits and scheduling constraints.
- Technologies: React.js, Node.js, Express.js, MySQL, REST API

Twin-baby Cry Classification and Prioritization Application

- AI-based system that separates overlapping twin baby cries, identifies each baby, and classifies the cry reason and urgency.
- The solution combines deep learning models and machine learning classifiers to analyze audio features, prioritize babies based on urgency, and support caregivers in making faster decisions.
- Technologies: Python, PyTorch, XGBoost, Librosa, Machine Learning, Deep Learning

MyMeds (Group)

- Mobile application featuring medication reminders, AI medical chatbot, prescription backup, pharmacy locator, and BMI calculator.
- Technologies Used: Flutter, Firebase, Llama 2 .

Multi-agent based Library Management System (Group)

- Library management system using agent-based simulation with separate admin and member roles.
- Technologies: Python, Mesa, Flask, Protege, HTML, Tailwind CSS

Personal Diary

- This Personal Diary App allows users to securely and easily document their thoughts, feelings, and experiences.
- Technologies: Java, SQLite.

EDUCATION

2022 - 2025

BSc (Hons) in Software Engineering

General Sir John Kotelawala Defence University, Ratmalana

COURSES

- Complete Web Development Course (Udemy)
- AWS Cloud Practitioner Essentials
- Docker Training Course for the Absolute Beginner (KodeKloud)
- CCNAv7: Introduction to Networks (Cisco Networking Academy)

EXTRACURRICULAR ACTIVITIES

- Chess (Rated player)
- Dancing (Traditional dancer)
